About Support Center

Support Center's mission is to empower nonprofits and social enterprises to transform their leadership and management and accelerate positive social change. Our services include Change Consulting, Executive Search and Transition Management, and Professional Development. Support Center is committed to working with nonprofits of all sizes and at all stages of their development. Our **affiliate consultant model** allows us to draw upon a deep and experienced bench of professionals with broad nonprofit leadership, management and industry expertise.

Founded in 1971 as the Support Centers of America, Support Center became an independent 501(c)(3) in 1997 and has largely served nonprofit organizations in the tristate area. In 2012, Support Center merged with Partnership in Philanthropy, a New Jersey-based capacity building firm specializing in fundraising, and greatly expanded its support of the New Jersey nonprofit community. Support Center has a core staff of 8, 15 affiliate consultants and 50+ facilitators.

Our Range of Services and Partnerships

With offices in the Financial District of Manhattan (32 Old Slip) and Newark, NJ, Support Center provides more than 80 public workshops annually on a range of topics including leadership and supervision, financial management, fundraising, marketing and communications, board effectiveness and many more. On-location customized trainings are also offered for organizations wishing to integrate learning and team building. In 2017 we engaged 926 unique organizations through hands-on services, workshops and convenings; provided hands-on services to 80 organizations across the tri-state area, upstate NY and beyond and created multiple communities of practice focusing on HR issues, governance and social enterprise development. We also continued our commitment to encouraging sector-wide collaboration through our involvement with the Ahead of the Curve Working Group, a collaborative of 17 peer organizations dedicated to strengthening other nonprofits through advocacy and capacity building, and continued to support national capacity building efforts through our involvement in The Alliance for Nonprofit Management.
