

THE LEADERSHIP COLLABORATIVE

ABOUT THE PROGRAM

Now in its fifth year, The Leadership Collaborative (formerly the Trajectory Leadership Group) engages emerging social sector leaders in a structured peer group to support, advise, and inspire their fellow leaders, and provides a safe space for individual growth. Through ten in-person gatherings, participants will learn creative solutions to management, operations, and sustainability challenges; increase awareness of their leadership style; strengthen their strategic decision making skills; and leave with the tools needed to provoke change in the organizations and communities they serve. Since its inception in 2012, Support Center has trained a diverse group of more than 50 leaders from the NYC tri-state area representing all areas of the social sector.

Leadership Collaborative members have the opportunity to explore their leadership and communication styles through a 360 leadership assessment and DiSC profile, improve their skills through case studies and a capstone project, and benefit from the wisdom and insights of leading practitioners in special seminars and panel discussions. Each emerging leader will join a network of alumni for ongoing support and collaboration, and will gain access to continued learning and social opportunities.

“

I acquired the framework to improve my performance management skills and decision-making in creating high-performance teams.”
