

Leadership and Supervision Certificate Program

Further your learning by engaging in interactive skills-based trainings, engaging and learning with peers, and reflecting on your own leadership style and evolution.

OVERVIEW

Seven workshops that consist of four required subject areas and three elective workshops of your choice. Required subject areas include: The Basics of Leadership and Supervision, People Management, Performance Management, and Effective Delegation. This certificate program will provide core leadership and supervisory knowledge and skills while also allowing you to explore personal areas of interest and growth.

BENEFITS

- Build respectful, authentic relationships with your team
- Define and share clear expectations
- Feel confident about having difficult conversations
- Create a workplace environment that supports motivation and productivity
- Add a great new credential to your resume
